Ms. Dana Yarn
Service Foods Inc.
4355 International Boulevard, Suite 150
Norcross, GA 30093-7222

Dear Ms. Yarn and staff,

I was very impressed with the wealth of information and research that was presented in the article "The Impact of Nutrition Therapy on Hepatitis C" and I would like to thank you and all the staff at Service Food, Inc. for the work you have done to confront health issues in Georgia. As one of the four million people who suffer from Hepatitis C (HCV), I will continue to use my position as a Member of Congress to raise awareness of the consequences of this infection and let others fighting hepatitis know that it is possible to succeed and excel while battling this disease.

Increasing awareness about HCV is imperative for all Americans, including those who suffer from the disease and those who do not. The various causes and effects, dietary recommendations, and key nutrients listed in the article will provide readers with a comprehensive understanding of the ways in which nutrition can help manage Hepatitis C.

I am honored to be your Representative, and I hope that my office can be a useful tool for you now as well as in the future. Please feel free to visit my office online at www.HankJohnson.House.gov where you may sign up for my e-newsletter and receive periodic updates on my activities in Washington and the district.

Sincerely,

Hank Johnson
